

Wifi Fingerprint Touch Keypad Access Control VIV-TF1

The WiFi Fingerprint Touch Keypad Access Control VIV-TF1 is a smart, durable access control device supporting fingerprint, card, PIN, and mobile app (Tuya) access. It allows remote unlocking, user management, and visitor record viewing via smartphone. With a 10,000 card/code and 300 fingerprint capacity, it supports Wiegand 26/34, data backup, and admin card control. Housed in a metal, IP68-rated waterproof case, the VIV-TF1 operates in standalone, reader, or toggle relay modes, ideal for indoor or outdoor use.
