

VIV-B1 Video Intercom Access WIFI Wireless Doorbell

The VIV-B1 is a WiFi-enabled video intercom doorbell that offers convenient home access control. Users can download the TuyaSmart or Smart Life mobile app to operate it easily. The device supports real-time video and two-way audio communication through the app. It works seamlessly with iOS devices running version 7.0 or higher and Android devices running version 4.3 or above. The installation process is simple and user-friendly. This doorbell enhances home security by allowing users to monitor and communicate remotely.
