

### Optowire Fitting Tools

#### Universal pole bracket UPB

The UPB bracket is a die-cast aluminum alloy product with high mechanical performance. Its special shape has been patented and developed in order to obtain a universal fastening block suitable for any configuration of fastening cables on wooden, metal or reinforced concrete supports (poles).

### TECHNICAL SHEET

DESCRIPTION	DATA
Material	aluminum alloy
Breaking load, KN	9
Distance between supports, max, m	120
dimensions (L x W x H),mm	113*121*45
Weight ±10%, g.	200
Installation temperature, °C	-40 to 70
