

Optowire Anchor clamp

Anchor clamp H3

Anchor clamp **H3** for self-supporting FO cables of round cross section with a diameter of 4 to 7 mm, as well as for cables with remote power elements (wire, cable or fiberglass rod).

During installation, it does not require separation or cleaning of the carrier element for fixing. Does not require a tool.

A distinctive feature of the clamp is that under increased load (icing, falling branches on cables, hurricane wind, etc.), the clamp is destroyed without damaging the cable BO, which in some cases prevents line breaks.

TECHNICAL SHEET

Type	Anchor Clamp H3
Material	plastic body, polymeric clamps
Loop Type	galvanized steel
Cable OD (mm)	3-7
MTL (kN)	1.5
Span (m)	50
Operating temperature(°c)	-40 ~ 50
Installation temperature(°c)	-20 ~ 50
