

VIV-V6-WIFI Facial Access

The VIV-V6-WIFI is a facial recognition access control device that integrates with the Tuya Smart App via Wi-Fi. It supports up to 5,300 users, including 300 face users and 5,000 card or PIN users. The device features a touch keypad and supports multiple access modes: smartphone, face recognition, card, and PIN. Constructed with a zinc-alloy metal housing, it is waterproof (IP66) and suitable for outdoor use. Additional functionalities include user management through the app, time restrictions, temporary passwords, access logs, remote access, and doorbell call notifications.
