

## *VIV-X5-RX OSDP Reader*

The VIV-X5-RX is a waterproof OSDP reader with Wiegand output, capable of reading 125KHz EM cards, HID cards, and 13.56MHz Mifare cards. Designed for secure and flexible access control, it supports multiple card formats for a wide range of applications.

### *Features*

- Works seamlessly with OSDP controllers for secure, encrypted communication.
- Compatible with optional Wiegand controllers for flexible system integration.
- Designed for outdoor use with IP66-rated protection against water and dust.
- Reads 125KHz HID, EM, and 13.56MHz Mifare, DesFire, Plus, UltraLight, NFC, and CPU cards

## Specifications

<i>Operating Voltage</i>	9-18V DC
<i>Standby Current</i>	≤50mA
<i>Frequency</i>	125KHz & 13.56MHz
<i>Read Range</i>	2~4 cm
<i>Operating Temperature</i>	-40°C~60°C
<i>Operating humidity</i>	0%~98%RH
<i>Color</i>	Black
<i>Index of Protection</i>	IP66
<i>Demotions</i>	120x75x20mm
<i>Unit weight</i>	200g
