

Model: YCDH-288-1

Technical Specification

General Information

Yixing YCDH-288-1 dome joint closure possesses large capacity and different types. It also meets the needs of bundle and ribbon for our consumers to elect.

Feature

7 ports. 1 elliptical port for ϕ 8-20mm uncut cable. Other 6 ports are branch ports, which is suitable for cables with diameter of 8-18mm.

Bundle range from 24 cores to 288 cores, with a maximum of 288 cores. The closure is available for 6 cores ribbon cable as well, up to 720 cores.

Good sealing performance. For wall mount, pole mount, manhole installation are easy to operate.

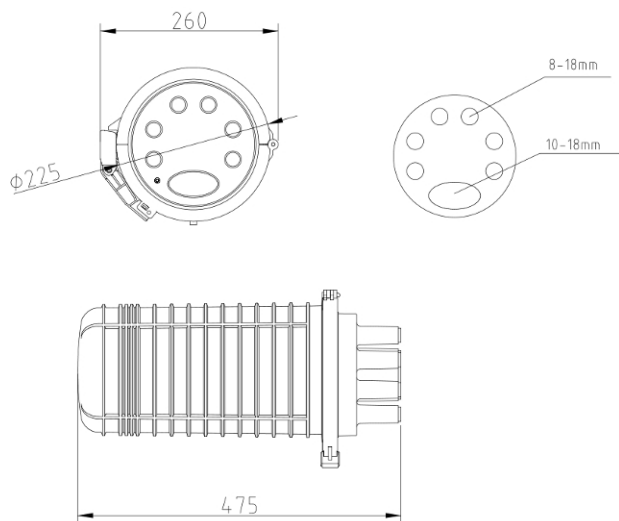

Welded pipe cassette deck could be replaced to meet the requirement of ribbon and bundle welded pipe placement. At the same time, micro type splitters can be installed.

Specification

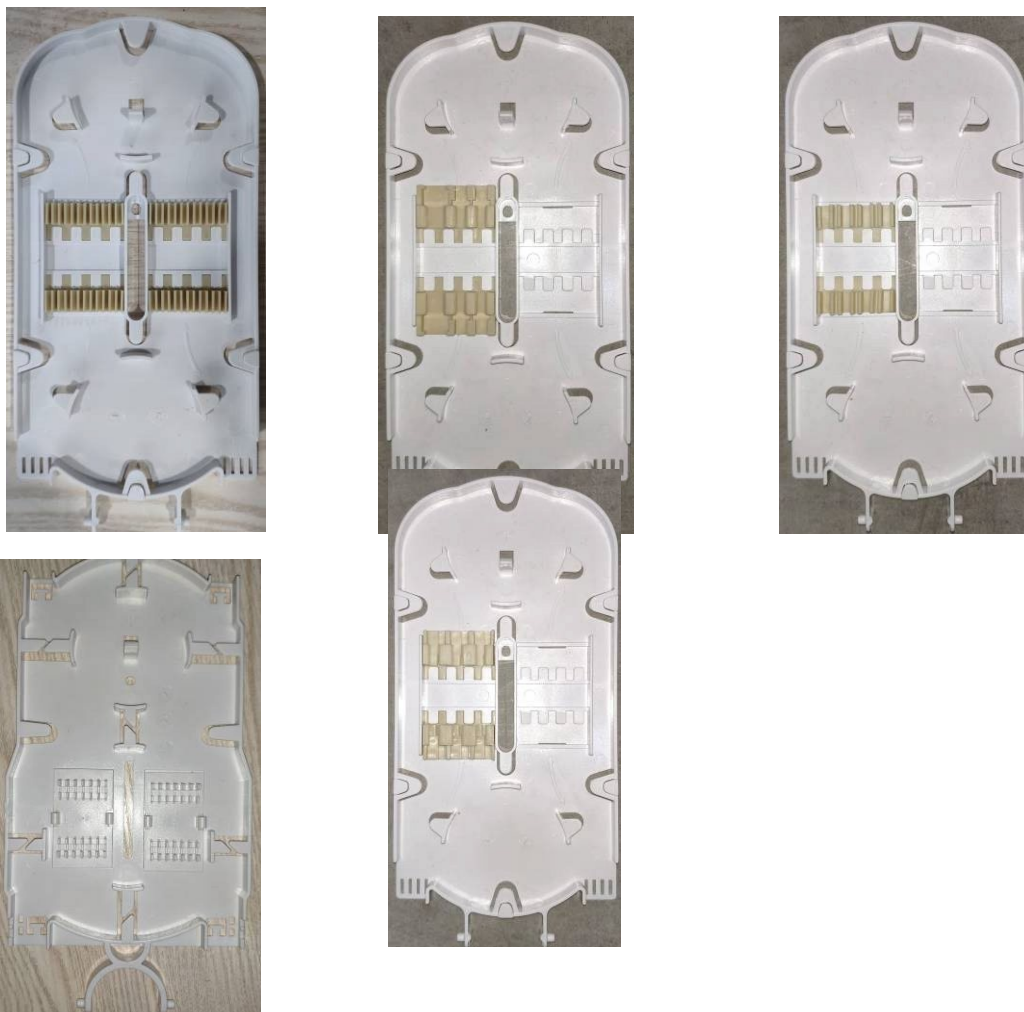

External dimension (\pm5)	480 X 260 mm	Material	ABS+PC
Max Capacity	288	Color	black
Splicing tray	24F/tray	IP grade	IP68
Inlet cable port	ϕ 8-20 mm	Inlet/outlet	1 / 6
Outlet cable port	ϕ 8-20 mm	Cable port Sealing Type	Heat shrink seal
