

Smart Wi-Fi Water Leakage Sensor VIV-WS2WL-TY

The VIV-WS2WL-TY is a compact and reliable smart water leak detector designed to provide early warnings of water leaks in residential and commercial settings. Utilizing Wi-Fi connectivity, it integrates seamlessly with Tuya Smart or Smart Life apps, sending instant notifications to your smartphone upon detecting water presence. Its IP67-rated waterproof design ensures durability, and the device is ideal for placement near appliances like dishwashers, washing machines, water heaters, and under sinks.

Features

- Water sensor provides early detection of water leaks or freezing conditions, so you can take steps to avoid damage.
- Battery powered: 1*123A battery is included for simple operation & replacement.
- WiFi-enabled technology allows notifications to be sent to your smartphone (as well as friends & family) in the event of a water leak or freeze hazard in your home.
- Sleek & small design allows for placement next to dishwashers, refrigerators, water heaters, toilets, or under sinks — ideal for use in basements or garages.

Specifications

Product Model	VIV-WS2WL-TY
Operating Voltage	DC 3V (1x CR17335/CR123A battery)
Alarm Indication	Blue Led
Alarm Sound	≥75dB/1m
Wireless Distance	Wi-Fi signal covered areas
Networking	Wi-Fi 2.4 GHz & Bluetooth
Operating Temperature	-10°C ~ +50°C
Humidity	≤95% RH (non-condensing)
Protection Level	IP67
Dimensions	Detector: 69 x 69 x 27.6mm
